This author should have someone proofread since the grammatical errors could be avoided. For instance using we'll for well is not the same word. Other than a few errors that can be overlook this is a good read. Worth your time money.0 of 0 people found the following review helpful. AwesomeBy CustomerI couldn't put this book down. Totally Awesome!By Jackie BauerelenI just finished book 3... It was awesome! I like the alien twist. It gives the story its own unique edge over other zombie stories. I can't wait for book 4!

Leah and her friends have finally made it to Stafford Springs. It seems to be safe and exactly what they had hoped for. Until Major Bucklin orders all those who aren't hybrids to leave. They find out that the hybrids are descended from an alien race called the Afith who sent the zombie plague to Earth as part of an extermination of the human race. The more the group learns about the town the less they want to stay. As the group waits to see who is hybrid, Leah and Rudy begin their romance.
